Longleaf Pine Exhibit Now Open

Landmark Park, home to Alabama's Official Museum of Agriculture, is pleased to announce the installation of a brand new exhibit depicting the longleaf pine ecosystem. Designed by Backstory Media and Kelton Designs, this interactive exhibit features live animals, taxidermy, a kid-sized gopher tortoise burrow and interpretive panels that showcase the longleaf pine ecosystem.

The new exhibit explores the relationship between the longleaf pine and the wiregrass. Live animals include a gopher tortoise, eastern indigo snake, corn snakes, aquatic turtles and a legless lizard. A demonstration hive of honeybees will also be joining the exhibit. Visitors will learn about the importance of controlled burns in a longleaf forest. After exploring the exhibit, visitors can make their way outside and enjoy the boardwalk and nature trails at Landmark Park. Landmark Park is a site on the Wiregrass Birding Trail, so birders will have an opportunity to see a variety of species.

This exhibit was made possible by funding obtained through the State of Alabama several years ago. Special thanks to retired Senator Harri Anne Smith and Senator Arthur Orr for their contribution to this project

Field Trip Registration Now Open

We are now taking requests for field trips and we have some programs you won't want to miss! Join us for Harvest Heydays, Living History, First Nations of the Wiregrass, and Christmas Past. Harvest Heydays is one of our most loved programs, allowing students to take part in harvest chores at Landmark Park's Wiregrass Farmstead. They even get to take home their very own pumpkin! Living History will put your students back in the late 1800s. They will get the opportunity to work around our historical farmstead in costume and do everything from plowing to churning butter to helping cook lunch.

This year, we are adding a brand new seasonal session to celebrate the first people of the Wiregrass. Students will learn more about Native Americans by hands-on experiences, including flint knapping, dancing and story telling. To finish out the year with cheer, we have our Christmas Past programs where students get to celebrate the season the old fashion way. Create ornaments for our one-room schoolhouse and enjoy some hot cider by the fire while our period dressed instructor reads "The Night Before Christmas". Your students are sure to have a holly jolly time! We fill up fast so register today! Visit www.landmarkparkdothan.com to see the complete listing of field trip programs and fill out a request form.

Volunteer Spotlight

After 38 years as a middle-school science teacher and decades of grading 7th-grade leaf projects, Charm Russler had two retirement goals: learn to quilt and become a Master Gardener. She grew up on a farm in Pennsylvania, and she was ready to get back into the dirt.

In high school, Charm was elected president of Central Pennsylvania Junior Academy of Science and was invited to see Apollo 13 launch in Florida. She and her biology teacher sat a couple bleachers down from Vice President Spiro Agnew. The teacher wanted to go to Sea World and meander to other interesting stops along the way home. Because of mission mishaps, the astronauts returned to Earth before Charm and her teacher returned to Pennsylvania. Charm's mother was a nurse, who guided all five of her children toward science-based careers. Her late husband Dean's job moved them to Dothan in 1976. They raised their two boys here. In 2021, each son gave them a Southern grandbaby. She currently works part-time as an AEA recruiter and as a standardized patient at ACOM. She's an active member of Greystone United Methodist Church.

Charm's domain at Landmark Park is the Sunflower House, a favorite place for fall pictures. She weeds and stakes and tidies the October Daises that flourish, obviously, in October.

The Wiregrass community, Dothan City Schools, and Landmark Park are grateful for the long-ago transplant of Penn State alums to our neck of the woods.

Charm recently attended her 50th-year high school reunion. While there, she participated in a landscaping day at the Shanksville site of the 9/11 plane crash. As weather eases, come to Landmark Park for your delightful family photos, and whisper a thank-you to science teachers.

To volunteer at Landmark Park, call the park office at (334) 794-3452 or email celeste@landmarkparkdothan.com.

The Veterans Gardening Project is back for another season at Landmark Park! For the fall season, our workshops will be held every other Tuesday from 9 a.m. – 11 a.m. at the designated community garden at the back of the park.

SEPTEMBER 13 Herbs

SEPTEMBER 27 Weed Identification

OCTOBER 11 Composting

OCTOBER 25 Harvesting and seed Preservation

This project will build and strengthen the local food system while providing veterans and their families the opportunity to come together for a hands-on gardening project. The program will host a series of workshops that will cover the basics of gardening as well as other topics for those who are more experienced. Let us know you are coming to the workshops by registering at www.aces.edu/go/vetsgardendothan or by calling the Houston County Extension Office at (334) 794-4108. The garden will be open during Landmark Park's normal business hours to any veteran who wishes to come out and work in the garden when there is not a workshop. There is free entry for those working in the garden and tools are available for use. This project was made possible through a partnership between Landmark Park, Wiregrass RC&D, Alabama Extension and our volunteers.

Artifact Exploration

This well-loved table was acquired during the museum build. The secret shelf built in underneath the table, according to the donor, was a shelf for her Granny's gun. You can see this table as well as many other artifacts in the Alabama Agricultural Museum, open Wednesday through Sunday.
