On **August 6 from 10 a.m. to 2 p.m.**, Teachers, parents, and kids of all ages are welcome to come to our Education Festival! Landmark Park offers many educational programs year-round to thousands of students. Our Education Festival offers a unique experience for parents and teachers to come and see all the Education Department offers. Along with all the adventures around the park, explore space with an instructor in the planetarium and get to know our reptiles at the Radical Reptiles program in the auditorium. Admission to the Education Festival is \$5 for adults, \$4 for kids and free for children 2 and under and for park members.

The workshop is hosted by the Wiregrass Beekeepers and the Alabama Cooperative Extension System and is free with paid gate admission. Longleaf Pine Exhibit to be Installed

Landmark Park is excited to announce the long-awaited installation of a Longleaf Pine Ecosystem exhibit in our Interpretive Center Lobby. This exhibit was made possible through the efforts of retired state Senator Harri Anne Smith. Installation is set to begin on June 27 and be completed by July 8.

We can't wait for you to see this long-awaited exhibit, which showcases the natural history of the Wiregrass area.

(At left) Project Leader Phil Ratliff with Backstory Media looks at proofs for the upcoming exhibit at Landmark Park.

Watermelon Tasting

Celebrate National Watermelon Month with Landmark Park during our Watermelon Harvest and Sampling on **July 9 at 10 a.m.** The Watermelon Sampling is free with paid gate admission. Special thanks to the Wiregrass Master Gardeners for coordinating this event each year. Watermelon is a favorite summertime fruit throughout the South. This juicy fruit can be red, yellow, pink, or dark pink on the inside and be seeded or seedless. Watermelon is a flowering ground vine from the gourd family. A single watermelon is made up of 92% water and is packed with healthy nutrients. They are a good source of antioxidants like vitamin A, vitamin C, vitamin B6, and potassium, magnesium, and dietary fiber. Visit www.alwatermelon.org for more info on watermelons. Sponsored by Wiregrass RC&D and Birdsong Farms.

Volunteer Spotlight

Veteran's Garden

Most of the volunteers who work the raised beds in the Veteran's Garden at Landmark Park are indeed veterans. But not all. Some folks like to offer their services to service members.

Teresa Do was scrolling Facebook, when she saw a post about the Veteran's Garden. She is not a veteran, but she wanted to commit to a community garden. So, she dug in. "I love it so much that it became a place for me." She helps, as all volunteers do, as a way to connect with nature and other people. They've built their own community in the back field. Men and women of different backgrounds and ages learn from each other. Sometimes, grandkids assist. Occasionally, Scouts show up.

Every other Tuesday, a speaker, organized through Alabama Cooperative Extension, leads a workshop (for example, disease mitigation and pest control), then directs application (how to lookout for those problems). All other days, volunteers are welcome, at their convenience, during park hours. While they grow Wiregrass-native plants, they enjoy learning about varieties not typically found in our local grocery stores, like Black Sea Man tomato from Russia, tropical Malabar spinach, and Luffa gourd, that is often used as a vegetable in Asian countries.

The volunteers reap the reward of their labor, and take the food they need. Next, they give to friends and family. "Veterans know veterans." Whatever is left goes to the Wiregrass Area Food Bank. They are currently seeking a veteran's group to donate to, as well.

Their goal is to recover all existing 37 beds, and each season, plant more and more, for a "big ole harvest!"

The newfound friends come from all over the Wiregrass; some drive an hour or more. It's worth the effort to come to Landmark Park.

To volunteer at Landmark Park, call the park office at (334) 794-3452 or email celeste@landmarkparkdothan.com. The Veteran's Garden is sponsored by Wiregrass RC&D and Alabama Cooperative Extension System.

HAPPY FATHER'S DAY! Fathers who are accompanied by a child on **June 19** will receive free admission to Landmark Park in honor of Father's Day.

Teachers can still register throughout the summer for this next school year. All of our field classes are listed on our website under the education page. Planetarium programs have returned, following the CDC guidelines. Make sure to check out our seasonal sessions: "Earth Day Celebration", "Aerospace 2023", and "Life of a Honeybee". Remembering Yesteryear

Hammond-Young Drugstore which had previously been the Ed Nix Drugstore until November 1904 when Jim Young and Dr. George Hammond took over the business. In 1906-1907, the Hammond-Young Drugstore was torn down and the First National Bank was built on that corner. In 1982, the name of the bank was changed to Southtrust First National Bank of Dothan.

Artifact Exploration

Crepe Iron. Similar to a waffle iron, a crepe iron could be used to make crepes. Patented on June 29, 1880, this iron could have been used atop a wood stove or over a hearth. This crepe iron came from the home of the late T. Z. Atkinson, north of Columbia, Alabama.

Congratulations Award Winners
